

fantasy.top

Fantasy is a social trading card game that combines strategic play with the collection and trading of digital assets. Players build decks of their favorite crypto twitter characters to compete and earn rewards during tournaments.

I. Getting Started

1. Sign In

- Sign in to Fantasy using your Twitter account. In the background, our partner Privy will set up an on-chain wallet for you. You can export your private key from your profile account.

2. Collect

- Collect cards in the marketplace, shop, or by participating in tournaments.

3. Compete

- Register decks to participate in tournaments.

4. Earn

- Earn rewards and improve your deck to claim packs of cards, ETH, BLAST GOLD, FAN points, and more.
- Sign In on Fantasy using your Twitter account. In the background, our partner Privy will set up an on-chain wallet for you. You can export your private key from the profile account.

II. Gameplay Mechanisms

• Main Tournament

- The Main Tournament is a direct way to earn rewards on Fantasy.
- Select a team of 5 influencers to compete. Your ranking is determined by the performance of your team. The higher your heroes' scores, the higher

your competition score (the sum of your players' scores).

- Our robust infrastructure tracks the Heroes' Twitter activity every hour, assigning them a Hero Score that reflects their online activity. The more attention they garner, the higher their score.
- Leagues
 - Players participating in the Main Tournament are categorized into five leagues. This arrangement enables everyone to compete and earn rewards appropriate to their skill level.
 - To advance to the next league, you must be among the top-ranked players in your current division. Higher leagues offer greater rewards. However, players ranked at the bottom of their league face relegation.
- Sub Tournaments
 - Alongside the Main Tournament, Sub Tournaments are held frequently.
 - For each tournament you enter, you'll need one deck.
 - These tournaments come in hundreds of variations, with each one allowing a specific subset of cards to compete (Developers, VCs, NFT PFP, etc).

III. Cards

- **Rarity**
 - In Fantasy, cards represent crypto Twitter Heroes (influencers).
 - There are four distinct rarities for these Heroes.
 - The more rare a Hero is, the more points they earn in competitions, with Legendary Heroes yielding the highest booster.
 -  Uncommon: Multiplier of x1 for Hero Score
 -  Rare: Multiplier of x1.5 for Hero Score
 -  Epic: Multiplier of x2 for Hero Score
 -  Legendary: Multiplier of x2.5 for Hero Score

- **Level Up Your Card**

- Use the 'Level Up' mechanism to upgrade your Heroes. To do this, burn 5 identical cards and observe as your Hero advances to the next level.
- Hope for a fortunate surprise. Some upgrades might catapult your Hero's rank one or even two levels higher than anticipated! You could be the one to transform a Common into a Legendary.

IV. Collecting

- **Marketplace**

- Trade and collect cards on the marketplace.
- The marketplace includes features such as bids, listings, and sweep functionalities.
- Fantasy charges a 3% fee on each trade, with the revenues being evenly divided between the Heroes and the treasury.

- **Shop**

- Packs can be purchased in the Shop.
- The Shop utilizes VRGDA technology. Patience may be required when purchasing a pack.

V. Earn

- **Competition and Lottery Rewards**

- Pack of Cards
- ETH
- Blast GOLD
- FAN points
- Stars

- Lottery
 - Players join the Lottery using the Stars they've accumulated from competitions and quests.
 - The more stars you collect, the higher your chances of earning the Rewards.
- Quests
 - Complete daily quests to earn FAN points and unlock additional rewards.
 - Pack of Cards
 - ETH
 - Blast GOLD
 - FAN points
 - Stars

VI. Heroes

- Benefits
 - Receive a 1.5% fee from the trading volume of their card
 - Get 10% of pack sales revenues, divided among heroes
 - Earn Blast GOLD and a significant allocation of FAN points
 - Receive free editions of their card, among other benefits
- To apply, send a direct message to the Fantasy Official Twitter Account

VII. Invitations

- Invite your friends to earn 9% of their competition rewards and 2% of the rewards from their referrals.
